How to Use This System (DMPS)
For assistance or to report A/V issues, call CMA at 401-874-4278

Getting Started
- Touch the screen to wake; touch again to start.
- Plug the cable into your device (HDMI & VGA inputs only).
- Touch the input button in the bottom row to send that image to the projector.
- Select ‘Use Whiteboard’ and press the up arrow on ‘Screen Controls’ to use the whiteboard & mute the image without shutting down the system.

Room Information
- Push the yellow “Room Information” button to find the following:
  - Turning Point Channel
  - Contact information for Classroom Media Assistance and Facility Serv.
    - Please call CMA for immediate assistance; emails may take 1 business day for response.

**Room PC**
A room PC is installed in the lectern. To use this device:
- **Select ‘Room PC’ on the touchscreen.**
- **If the PC does not automatically display, type on the keyboard and move the mouse to wake it from Sleep Mode.**
- **If the computer does not wake, press the power button (pictured right). A white light will appear to the left of the button when powered on.**

**Turning Off the System**
- **On the touchscreen, touch the system power icon in the top left corner.**
- **Then, touch the red icon to power down the system.**
- **Please make sure any rechargeable microphones are replaced in the charging station before leaving the room.**
